

SWITCHSENSE™

INNOVATIVE EMERGENCY LIGHTING

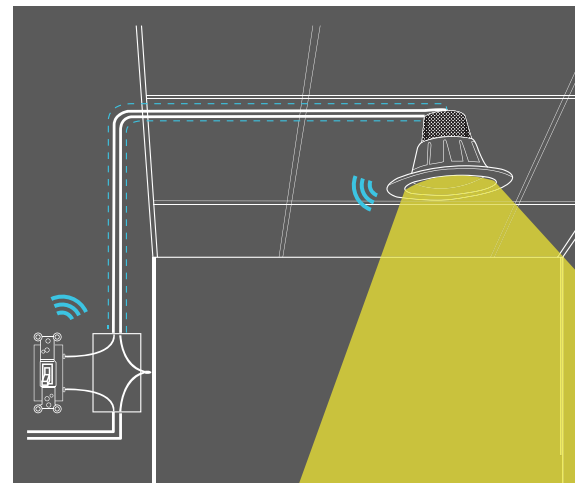

SwitchSense™ modules detect a power outage without additional wiring to the main power and provide instant power to the light source so your lights are not affected by the outage.

Applications

- Battery Backup for Lighting
- Power Outage Functionality
- Replaces Existing Lighting Fixtures
- Emergency Energy Storage
- Retrofit Power Outage Lighting
- Commercial Emergency Lighting

Key Features

- Power Outage Activated
- Patented Switch Position Sensing
- Easy Installation
- No Additional Wiring
- Energy Efficient
- Auxiliary Emergency Lighting*
 - *Can meet the safety code in some applications
